Agenda

- How CVR is built and how it has evolved
- What is our data distribution strategy and how it has changed
- Beneficial ownership registration

- Build in 1999

- Contains 812.069 active companies

- Registration is based on the concept of "anmelder ansvar"

- Was self-founded until 2012 on the sale of Data

- Few very big actors on the market

Data distribution strategy and how it has changed

- In 2012 data from the CVR became free
- Hole new infrastructure was needed
- Brand new technology (Elasticsearch)
- Into the cloud AWS (20 min. downtime since 2015)
- Close to 18 million daily requests and more than 1600 unique users
- How has business in Denmark been impacted

Beneficial ownership in the CVR

- Implemented may 2017 as part of the CVR

- 357.294 companies has registreted BO (97,3%)

- High quality of data because the banks needs to validate

- All data is available to the public on www.cvr.dk (Show and tell if time premits)
